Hi [First Name],

**Subject: “There has to be a better way,” I thought...**

Hi [First Name],

Like you, I've worked in just about every facet of the real estate world.

And also like you, I've had the same struggles with finding the time to do everything while trying to find, buy, and sell real estate.

At the end of the day, we're all interested in finding anything which helps us do things faster, better, and more efficiently.

In an effort for more efficiency, I have tried lots of different services and tools to help me meet my goals... with pretty mixed results.

- CRM solutions are great at what they do, and are definitely a requirement, but automation can only get you so far. Auto-responders can be extremely powerful, unfortunately, the average open rate for an email is only about 20.8 % and click thru rates are about 1.9%. You still need people you can trust who you can hand vital tasks off to on a regular basis, to help you mine and work leads, answer incoming sales calls, book appointments, and more.
- Outsourcing some of your services to VA's and Answering Services might seem like a good idea in theory... Unfortunately, many of the companies out there don't work exclusively for real estate investors, meaning they have very little skin in the game with your business and the train-up time can be cumbersome.
- Hiring your own team to help with your inbound and outbound lead management seems like the easiest way to go... Until you consider payroll, taxes, benefits, team DRAMA, vacation and sick time, onboarding and TRAINING, and then TURNOVER that makes you start all over again 2-3 times a year. Not to mention the fact that the likelihood of finding and retaining a quality team member who would want to work for \$10 per hour these days is rarer than finding a cheetah in your backyard.

I've seen countless real estate investors pay good money for all of these solutions, and still end up working more time “in” their business, than they do “on” their business.

So much so that their family barely ever sees them, and they themselves have either reached the ultimate burn out point, or are approaching it fast.

After seeing this time and time again, I knew there had to be a better way --- which is why I was so excited when I discovered RealEstateInvestor.com and their Done-For-You Services.

Imagine a complete real estate investing business solution created to help you regain FREEDOM in your business by delegating the \$10 per hour tasks out to a team of experienced and trained sales ninjas who can carry the lead mining and working load for you.
